DIVINITY CRYSTALS / RETAILER RESOURCE LIBRARY

Gemstone disclosure checklist

Buyer and retailer handover record | Version 27 November 2026

Complete one record per item or identified parcel. Separate verified facts from supplier claims. Mark missing evidence as unknown; do not infer untreated status or origin from appearance.

Ten-point item record

Field / what to check	Details, evidence or unknown
Item reference SKU, specimen ID, seller and date	
Material identity Species, variety, natural / laboratory-grown / imitation / unknown	
Treatment Known treatment, evidence and limitations	
Origin Claimed locality and supporting evidence, or unknown	
Measurements Weight, units, dimensions; loose or mounted	
Photographs Actual item or representative image; date and scale	
Condition Chips, fractures, repairs, coatings and mounting	
Report Issuer, number, scope, date and item match	
Care Material-specific cleaning and handling limits	
Handover Price, return terms and unresolved questions	

This record is not a laboratory report, appraisal or authentication guarantee. Seek qualified gemological examination when significant claims remain unresolved.
